Worked on Both Front-end and Back-end aspects of Web Development.Gained hands-on experience in Full Stack Development.

Internship in Web Development - Amypo Technologies   2023/01
Worked on Front-end aspects of Web Development.

PROJECTS

E-COMMERCE
An e-commerce website created with HTML, CSS, and JavaScript is a dynamic platform where users can explore a variety of products, seamlessly add items to their shopping cart, and complete their purchases online.

Haircut Appointment Booking
This Website allows users to schedule appointments with hair salons online. This project streamlines the process of booking haircuts by providing users with an easy-to-use interface to choose services, and pick an available time slot.

People Funding using Blockchain
The People Funding platform facilitates crowdfunding campaigns where users can contribute funds to support. By using blockchain, the platform eliminates the need for intermediaries like banks or payment processors, and increasing the speed of transactions.
